[{phocadownload view=file|id=72|text=Download KARABO Warehouse/Munition Brochure - Arabic|target=b}](#)

**LogV** (Logistics and Asset Verification) - LogV allows the user to do stock and logistics verification .... [contact us for more info.](#)

**RFS** (Request for Service) - The RFS Management System allows users to effectively manage user requests, do follow-up.... [{phocadownload view=file|id=3|text=Download RFS Brochure|target=b}](#)

### Reliability Engineering Products

**New: REW Release 3.0 now available and free upgrade now available to all our clients with valid Technical Support!**

Interested and prospective clients, enquire about how we can increase your equipment reliability and contain operating costs at [support@optilog.co.za](mailto:support@optilog.co.za)

**REW** (Reliability Engineering Workbench) - The Reliability Engineering Workbench seamlessly integrates Risk and Reliability Management Processes in compliance with specific SAE, AS/NZS and Mil Standards.... {phocadownload view=file|id=2|text=Download REW Brochure|target=b}

REW Modules are:

- PCA (Plant/Equipment Criticality Assessment)
- FMECA (Failure Mode Effects and Criticality Analysis)
- RCM (Reliability Centred Maintenance)
- RCA (Root Cause Analysis)
- ERMO (Existing Routine Maintenance Optimisation)

### Decision Support (Distributor of the TFD Suite of products)

**MAAP**<sup>®</sup> (Life Cycle Cost Modelling) - In a nutshell, MAAP<sup>®</sup> can be used to study the resource and cost implication of the deployment, operation and support of complex, evolving systems in dynamic operating scenarios.... {phocadownload view=file|id=6|text=Download MAAP Brochure|target=b}

**VMetric**<sup>®</sup> (Spares Optimisation) - Is your organisation chronically short of the spare parts it needs to keep critical systems in operation while your warehouse bulges with stocks that never move... {phocadownload view=file|id=5|text=Download VMetric Brochure|target=b}

**EDCAS**<sup>®</sup> (Level of Repair and Early LCC Trade-off) - By giving almost immediate feedback on the life support costs and logistic performance of design alternatives EDCAS<sup>®</sup> brings

logistic concerns insight the system engineering decision loop...{phocadownload  
view=file|id=4|text=Download EDCAS Brochure|target=b}
